## Description

The 82001i-E is a petrol-powered, portable inverter generator powered by an 80cc, single-cylinder, 4-stroke Champion engine that produces a max of 2000 watts.

With a 4.1 litre fuel tank this unit can run for up to 11 hours at 25% load. Our 4-stroke engine is equipped with a low oil shut-off sensor and is designed for a long life and easy maintenance.

The unit also contains true-wave inverter technology, making it safe to power all your sensitive electronic devices such as laptops.

This unit is ideal for camping trips, traveling and light jobs outside the house.

These units are stackable, and can be joined in parallel to produce more power as required (separate parallel link kit required).

# 3 YEAR WARRANTY

## Features

- Up to 11 hours runtime @ 25% load
- Economy mode to save fuel
- Sine-wave inverter technology
- Auto throttle system
- low oil shutdown
- 12v output for battery charging
- Low Noise
- Petrol Engine
- Lightweight
- Portable with built-in carry handle
- Stackable design - Parallel option
- 3 Year warranty

## Specification
